

MICRO
3D-PRINTING

From a few mm down to a few μm

DLP-SLA

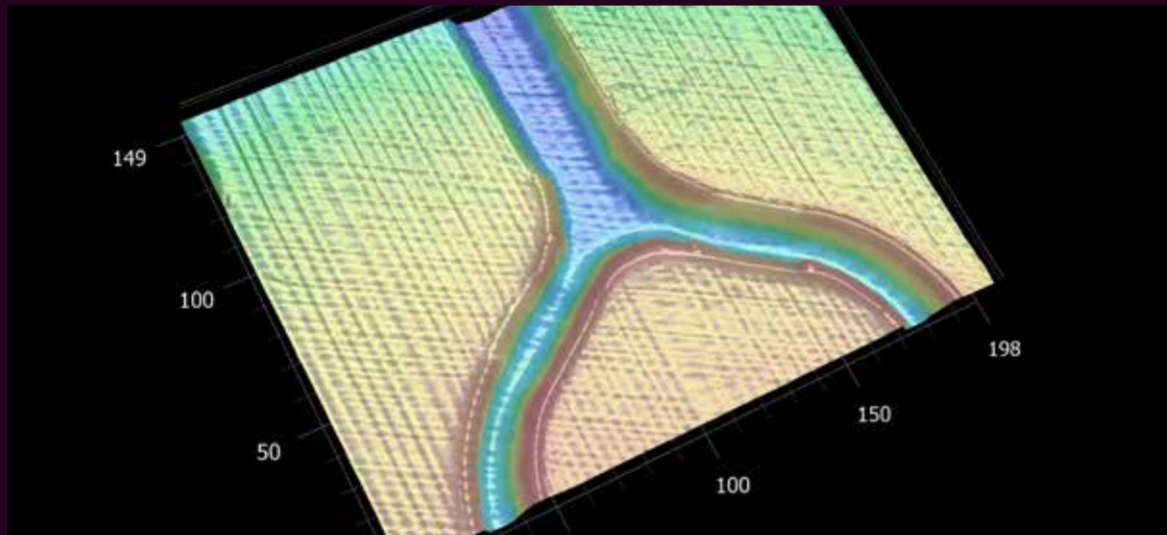

- 10 μm pixel size
- 25 μm layer thickness

Rapid prototyping over the entire dimensional range of micromanufacturing (from a few mm to a few μm)

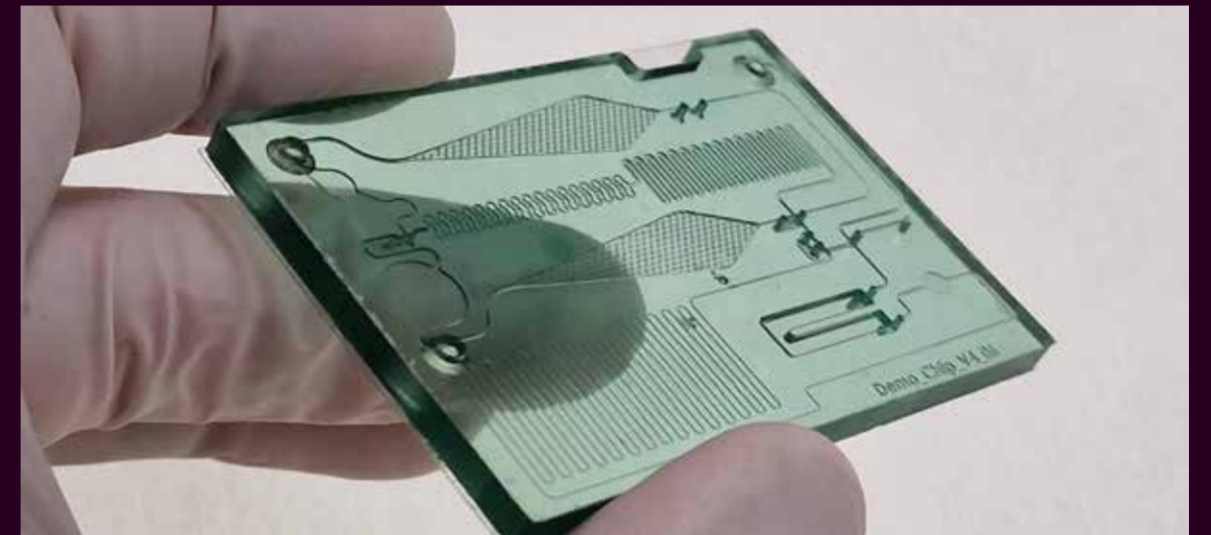

MPP

- 1 μm resolution

Printable envelope

- 80 x 80 x 30 mm^3

Both techniques combined on the same platform!
